ECO BRIXS LTD.

Transforming plastic waste into green jobs and sustainable products.

Eco Brixs
Building Zero Waste Communities

Uganda
Founded: 2017
www.ecobrixs.org
Sector: Waste Management

Uganda faces severe plastic pollution, with 600 tons of plastic disposed of daily – 90% of which is burned, buried, or dumped in public spaces.

Through a network of **Resource Recovery Agents (RRAs)** Eco Brixs collects plastic waste, compensating collectors per kilogram. This integrated, circular waste management model tackles both unemployment and plastic pollution. Eco Brixs is an award-winning company that operates under 3 pillars: **Enterprise** (creating a scalable plastic recycling model), **Employment** (focusing on creating jobs for vulnerable and underrepresented communities), and **Education** (raising awareness through partnerships with 50+ schools.)

3,700+ tons of plastic recycled

5,500+ RRAs employed
as plastic collectors, including 35% women and 70% youth

22% of HQ recycling team
are people with disabilities

18 eco-products
created through recycling and available for sale.
